The Emerging Leader - The Model from the Book

THE SEVEN CORE CHARACTERISTICS OF EFFECTIVE LEADERSHIP

* Know Yourself

Confident leaders apply their strengths judiciously and work on their personal growth and development. They appreciate the value of life-long learning and self-discovery.

* Emotional Resilience

Resilient leaders are aware and in control, of their emotions and have the ability to adapt to stressful situations or crises. They overcome adversity without lasting issues.

* Empathetic Relationships

Empathetic leaders have the ability to recognise, understand and share the thoughts and feelings of another person. They acknowledge the story without judgement.

* Vision and Values

Visionary leaders appreciate that, while values make a contribution, vision is future-focused and about developing clarity and purpose around their goals.

* Effective Communication

Effective leaders understand the power of words and their ability to inspire, support, reassure and direct their people. They communicate with clarity of purpose.

* Motivation and Teamwork

Motivational leaders create a working environment where empowerment and active encouragement build teamwork. They show trust and courage while walking the talk.

* Trust in Your Leadership

Appreciate yourself, exhibit your values, walk your talk and trust in your worth. Trustworthy leaders work with their people to establish believability, dependability and reliability through open and transparent behaviour that lacks self-interest.

*“Regardless of **WHAT** we achieve in our lives, our **WHY** – our driving purpose, cause or belief – must always be based on the principles of ethics, trust and integrity.”*
